

August 2006

Wendy Hollick
Professional Organizer
Neat Spaces

Dear Wendy,

I wish to express how satisfied we are with the outstanding service you have provided to us. To be truthful I wasn't really sure what to expect from a company providing 'organizing services' but you and your team really came through for us. I expected it to be more about being tidying up the office but I discovered that it is really about working smarter. Through your initiative and creativity you and your team found solutions for problems that we didn't realize we had.

In the end you saved us time which in turn relates to money. As a result my staff and I are working more efficiently and our customer services have been enhanced.

It's a pleasure to work with someone who understands that the day-to-day operation of a business can not simply be put on 'pause' for even a day. I was pleasantly surprised to find that we were able to carry on providing services to our clients without interruption.

I am convinced that your venture is very well suited to small business. As workspaces reduce in size, it is critical that we work more efficiently. As a result of our experience and satisfaction with your results we have recommended Neat Spaces to others and will continue to do so. Feedback indicates that our associates are pleased with their results too.

Please accept our sincerest thanks for a job well done and we look forward to continuing our relationship with Neat Spaces.

Sincerely,

PRIME OFFICE TORONTO INC.

Wendy Hopper,
Centre Manager
