## NEAT SPACES EZINE - JUNE 2010

Brought to you by Wendy Hollick, Professional Organizer

### THE TIME IS NOW!!! HAVE A ORGANIZED GARAGE THAT YOU'RE PROUD TO SHOW OFF

#### Scheduling Tip

Organizing your garage might seem like a good rainy-day activity, but it's better to do it on a nice day. That way you can actually take everything out into the driveway where you can get a good look at it and figure out whether it needs to be cleaned or repaired before putting it back – or whether it should be put back at all!

#### Safety Tip

An organized garage is a safe garage! To prevent accidents, cabinets and shelves should be securely fastened to the walls, and children's items should not be stored near rakes, shovels, or other sharp or potentially dangerous objects.

#### Green Tip

Dispose of all toxic materials responsibly by taking them to the Household Hazardous Waste Depot in your area. You can avoid these trips in the future by looking for eco-friendly paints, pesticides and cleaners instead of harmful chemicals next time.

#### Money Saving Tip

I love the SCHULTE Activity Organizer and it happens to be one of many great garage organizing products on sale at Solutions right now. It's a steel grid which can be mounted either vertically or horizontally on your garage wall, so it's perfect for holding garden tools, toys, pipes, and other items, giving you lots more storage space.

#### Downsizing Tip

Take some time to enjoy going through all your treasures, and be realistic as to what you can take with you to your new home. Family members might be happy to take some of your things, but you may need to consider donating others to charity or selling them. If you have lots of stuff to sell, consider holding a garage sale.
